

# iFOG 320 Fazer

PRODUCT CODE IN-IF-320

The iFOG 320 Fazer produces a translucent haze in a fazer effect. Using regular fog fluid, the iFOG 320 Fazer produces a constant output, and features variable volume and timer control for hands free operation. The Eco Thermal control to ensure the machine is always in ready-to-fog status and 'no liquid/auto cut off' makes this a very smart Fazer to operate.
