

/ Dynamic In-Ear Headphones

EP3

EP3

The EP3 Dynamic In-Ear Headphones are equipped with proprietary Audio-Technica dynamic drivers offering a full frequency response and richly detailed high-fidelity sound. They come with three sizes of flexible earpieces and universal-fit foam tips for a custom fit, increased isolation and long-wearing listening comfort.

Features

- **High-fidelity sound**—Deliver an exceptionally pure audio signal
- **Ultra-compact design**—Ideal for on-stage use with M2 and M3 Wireless Monitor Systems
- **Sound isolation**—In-ear design forms an acoustic seal for isolation from background noise
- **Customized comfort**—Soft interchangeable earpieces (small, medium & large sizes, plus ear-conforming foam tips) provide a custom fit
- **Compact protective case**—Hard carrying case protects in-ear headphones & accessories
- **Soft pouch**—Protective pouch provides additional storage option
- **Y cable**—Includes an adjustable sleeve for a secure, comfortable fit
- **Locking mini-plug**—Gold-plated stereo mini-plug with locking collar provides exceptional corrosion resistance, superb conductivity, secure connection
- **Extension cable/adapter**—Includes a 25 cm (9.8") extension cable with a 3.5 mm mini-plug suitable for use with MP3 and other portable players
