

**Basic Description:****LED Pinspot 1x3W White LED.****Compact and bright LED Pinspot - ideal for mirror balls**

Combining old technology with new the LED pin spot uses super bright LED's with a 12 degree beam angle to create a genuine pin spot. The sturdy ABS case surrounds a long life, very low heat, high output fixture. The light also comes with hanging bracket and additional 6 degree beam angle lens for tighter beams.

Great when used in multiples for clubs and venues and ideal for lighting up mirror balls or truss. Suits any situation where a small concentrated light source is needed.

Features & Benefits:

- Bright 3W White LED light
- Very narrow concentrated beam
- Includes clip for gel sheet & hanging bracket
