## Array Series <br> Key Features:

- Perfect Array-Module Design Horizontal Horn Pattern Matches Cabinet Angle
- High Technology Transducers 355 mm (14 in) Ultra-low Distortion Neodymium Woofer with Unique Gap Topology
$38 \mathrm{~mm}(1 / 1 / 2 \mathrm{in})$ exit, 100 mm (4in) diaphragm Neodymium Compression Driver
Secure Array Flying Ergonomics S.A.F.E. ${ }^{\text {TM }}$

Internal Steel Braces accept Optional Truss Module and Hardware

- Integrally Designed with JBL Array Series Controllers Choose Analog, or Digital Controller for optimum system performance

## Versatile

Concert and Theater Reinforcement,
An Presentation, Speech
Reinforcement

## Array Series Systems

JBL's commitment of providing audio professionals the best tools for their work continues with the Array Series. JBL Array Series systems provide the ultimate performance for touring and fixed installations. The very compact 4892 provides smooth, predictable coverage and response from both a single enclosure and arrays of multiple enclosures. It combines ease of transport with the flexibility to fly or install quickly and safely. Integration of advanced design high power transducers, a new generation of horns, and advanced control electronics provides clearly superior performance. Reliability is designed in, without having to relay on intrusive signal processing.

## Components

Array Series builds upon a solid foundation: more than 40 years of JBL transducer expertise and engineering. The 355 mm (14 in) low frequency transducer represents JBL's commitment to research. New technology includes a unique deep coppersleeved gap low-distortion motor structure topology, with Vented Gap Cooling (VGC ${ }^{\text {ITM }}$ ) to produce the accurate reproduction at high power levels with minimal power compression. A new $38 \mathrm{~mm}\left(1^{1} / 2 \mathrm{in}\right)$ exit ${ }^{1}$ U.S. Patent \#5,042,072

## Specifications:

| SYSTEM: |
| :---: |
| Frequency Response ${ }^{1}( \pm 3 \mathrm{~dB}): 50 \mathrm{~Hz}-18 \mathrm{kHz}$ |
| Sensitivity ${ }^{2}$ : $98 \mathrm{~dB}(1 \mathrm{~W}, 1 \mathrm{~m})$ |
| Recommended Amplifier Powers ${ }^{3}$ : |
| High Frequency: 300 W at 8 ohms |
| Low Frequency: 600 W at 8 ohms |
| Nominal Coverage: $45^{\circ}$ horizontal, $35^{\circ}$ vertical |
| LOW FREQUENCY TRANSDUCER: |
| Nominal Diameter: 355 mm (14 in) |
| Nominal Impedance: 8 ohms |
| Power Rating: $\begin{aligned} & 600 \mathrm{~W} \text { AES, } 50 \mathrm{~Hz} \text { to } 500 \mathrm{~Hz} \\ & 2400 \mathrm{~W} \text { peak }\end{aligned}$ |
| Voice Coil: 100 mm (4 in) edgewound aluminum ribbon |
| Features: Ultra linear, neodymium magnet motor structure |
| HIGH FREQUENCY TRANSDUCER: |
| Throat Diameter: $38 \mathrm{~mm}(11 / 2 \mathrm{in})$ exit |
| Nominal Impedance: 8 ohms |
| Power Rating: $\begin{array}{ll}75 \mathrm{~W} \text { AES, } 1 \mathrm{kHz} \text { to } 10 \mathrm{kHz} \\ & 300 \mathrm{~W} \text { peak }\end{array}$ |
| Diaphragm: 100 mm (4 in) pure titanium diaphragm |
| Voice Coil: 100 mm ( 4 in ) edgewound aluminum ribbon |
| Features: Neodymium magnet motor structure |
| HIGH FREQUENCY HORN: |
| Type: Optimized Aperture Flat-Front Bi-Radial |
| Material: Die cast aluminum |
| Coverage: $45^{\circ}$ horizontal, $35^{\circ}$ vertical |
| ENCLOSURE: |
| Type: Vented, $45^{\circ}$ included angle trapezoid |
| Material: $19 \mathrm{~mm}(3 / 4 \mathrm{in})$, 13 ply hardwood |
| Flying System: S.A.F.E. -JBL proprietary, modular, certified |
| Finish: Black textured paint |
| Grille: 16 ga. perforated steel, foam backed |
| Connectors: Parallel 8 pin Neutrik pins $1 \pm$ LF, Pins $3 \pm$ HF |
| Features: Handles, 35 mm ( $13 / 8 \mathrm{in}$ ) aluminum tripod socket |

'Half Space measurement
${ }^{2} 1 \mathrm{~W}$ is equivalent to 2.83 V into 8 ohms
Recommended Power Amplifier ratings are a guide for amplifier selection considering normal program material and line voltage available to amplifiers, although lower power amplifiers may be utilized The 4892 system is capable of greater peak power input.

## 4892 Compact Two-way Loudspeaker System

neodymium high frequency compression driver with Coherent Wave ${ }^{\text {TM }}$ phasing plug and 100 mm (4in) titanium diaphragm delivers low distortion response to beyond 20 kHz . A $45^{\circ}$ Optimized Aperture Flat-Front Bi-Radial ${ }^{8}$ horn ${ }^{2}$ provides accurate pattern control over its entire bandwidth.

## S.A.F. E. ${ }^{\text {TM }}$ Secure Array Flying Ergonomics

Important for both portable and fixed installation applications is the ability to rig a cluster quickly, but with absolute safety. The 4892 has four internal steel braces that are ready to accept optional bolt-on truss modules. Any desired coverage can be quickly assembled using a few basic fittings. Ultimate break strength of this method exceeds $2700 \mathrm{~kg}(6000 \mathrm{lb})$. A complete line of hardware is available for any application.

## Active Control

The ASC24 provides cost effective analog signal processing with simple setup. The DSC280 offers additional precision, flexibility, and user convenience available only in the digital domain. Both provide superior high level sound quality.

## Enclosure

The system's $45^{\circ}$ trapezoidal wedge shape helps optimize array performance. Extremely rigid $19 \mathrm{~mm}(3 / 4 \mathrm{in}$ ) 13 ply hardwood, a textured black paint finish, and a perforated 16 ga. steel grille form a durable package.

## Applications

The 4892 is ideal for applications requiring high fidelity music reproduction at any SPL, or high intelligibility speech reinforcement. Size, shape, and performance allow "invisible" use.
${ }^{2}$ U.S. Patent \#4,308,932

| GENERAL INFORMATION: |  |
| ---: | :--- |
| Dimensions: | $628 \times 394 \times 362 \mathrm{~mm}$ <br> HxWxD <br> $(243 / 4 \times 151 / 2 \times 141 / 4 \mathrm{in})$ |
| Net Weight: | $30 \mathrm{~kg}(66 \mathrm{lb})$ |
| Shipping Weight: | $32.7 \mathrm{~kg}(72 \mathrm{lb})$ |
| OPTIONAL S.A.F.E. FLYING HARDWARE: |  |
| Truss Module: | Cabinet flying truss |
| Shackle Mount: | Attaches truss module to create <br> lifting point |
| Quick Release Pin: | Locks shackle mount, truss module <br> and connecting bar |
| Stacking Bracket: | Vertically attaches 2 truss modules |

JBL continually engages in research related to product improvement. New materials, production methods. and design refinements are introduced into existing products without notice as a routine expression of that philosophy. For this reason, any current JBL product e the original design specifications unless otherwise stated
